Toshiba PA3930U-1BRS Primary Extended Capacity Battery Pack

Take your laptop on the road without sacrificing performance and convenience with the Toshiba PA3930U-1BRS Primary Extended Capacity Battery Pack. This 9-cell, rechargeable, Lithium Ion battery is designed to work with various Toshiba series portable computers. The Toshiba PA3930U-1BRS Primary Extended Capacity Battery Pack can be used as either a spare or replacement battery, it gives you extended battery life for more computing time, watching more movies, playing more games or listening to more music. It attaches to the bottom of the notebook raising the back end by half of inch, for convenient viewing and a comfortable angled typing surface. Avoid finding yourself on the road with a dead battery by adding extended power to your portable computer with the Toshiba PA3930U-1BRS Primary Extended Capacity Battery Pack.
